ABOUT ME

I have been working with web development since 2019, the period during which I have worked in different environments, and start-ups. I am a self-motivated and self-taught professional who likes to solve problems. I merge a passion for usability and user experience with technical knowledge to create cool digital experiences. My repertoire includes programming languages and tools such as React JS, Nest JS, WordPress, MySQL, PostgreSQL, MongoDB and Serverless web apps on AWS & Firebase, ExpressJS, JWT and API's.

WORK EXPERIENCE

1 JAN 2021 – CURRENT – Ragusa, Italy

CTO

Sicilia Mia

Sicilia Mia is a tourism company. My job here is to develop a data entry platform, travel portal, and booking engine for rentals.

- Develop web applications based on React, Redux, Material-UI, Firebase, Beds24 APIs & Stripe.
- Use my experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality
- Screened and Lead a team of 6 front end developers, 2 back end developers giving support to the company multi-cultural team, providing feedback, clarifying requirements and helping with technical questions
- Setup serverless architecture on Google cloud
- Setup Jira, Apple Business Manager and worked on various Zoho applications.
